19 // ==/UserScript==
20
21 function() {
22     'use strict';
23
24     const close_image = "data:image/png;base64,iVBORw0KGgoAAAANSURElgAAgAAAIACAYAAADbnTGAABHNCVQICAgIFAhk1AAAAIwSF1zAAAPkgAAD5IBBKHoAAAAB10RvH0U29mdkdhcmUAd3d3Lm1ua3NjYXB1Lw9yZ5vuPBoAACASU
25     const alert_image = "data:image/png;base64,iVBORw0KGgoAAAANSURElgAAgAAAIACAYAAADbnTGAABHNCVQICAgIFAhk1AAAAIwSF1zAAAPkgAAD5IBBKHoAAAAB10RvH0U29mdkdhcmUAd3d3Lm1ua3NjYXB1Lw9yZ5vuPBoAACASU
26     const config_image = "https://statsxente.com/MZ1/View/Images/etiqueta_bota.png"
27     GM_addStyle("#snackbar .ctx {
28
```

Use CTRL+S to save all, test on Managerzone page, probably you see the next two screen captures, please click in allow always domain to allow the connections to Stats Xente site.

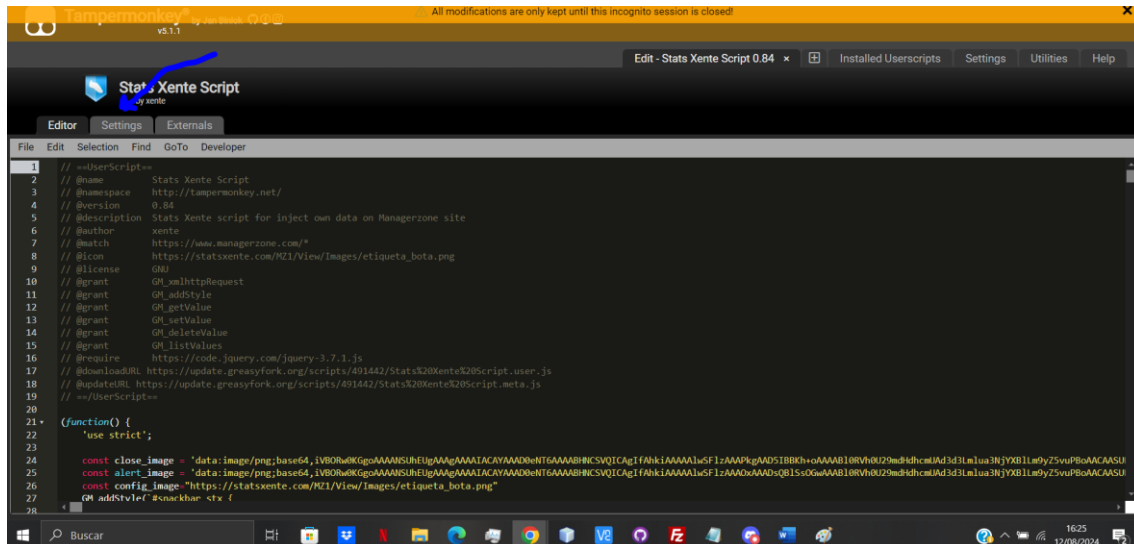

4-Allow domains

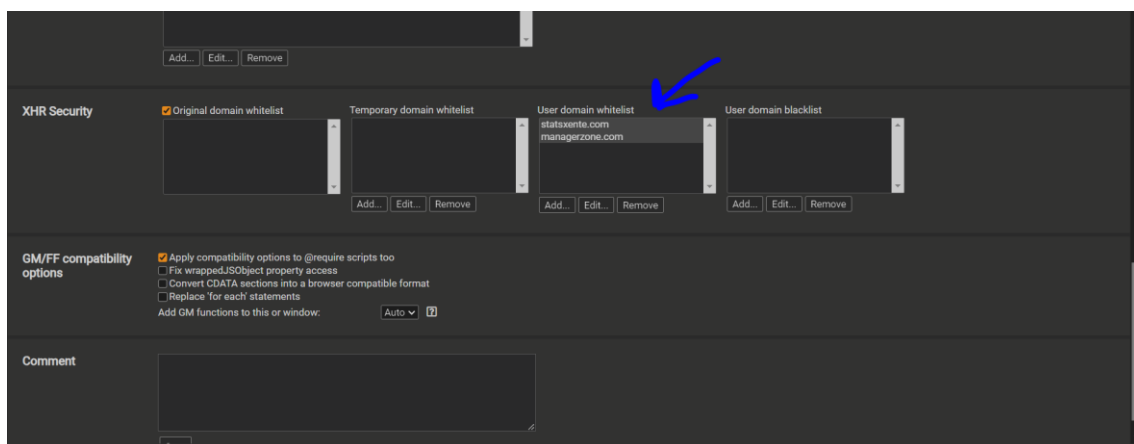

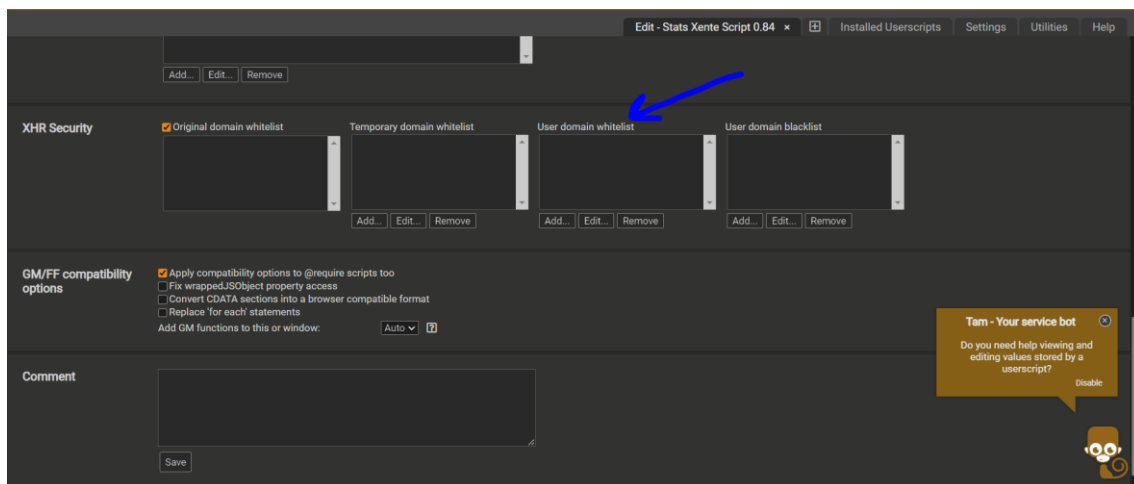

If after refresh the website the data not appears do this , Open Tampermonkey dashboard:

Click on Settings:

Go to bottom of page and add two domains to white list, **statsxente.com** and **managerzone.com**:

Refresh and try, if the extension still not working, please contact with xente else the script is correctly installed and the updated will be notified automatically.
